Re: Judge Sadler  
Master Cross

Dear Judge Kelly,

At the request of my client, I am sending you his correspondence today concerning Judge Sadler's and Master Cross's rulings in his case. He appealed both the custody order and his child support order in the NH Supreme Court. Unfortunately, he never permitted me to sit down with the file on my own prior to briefing the issue of child support. I went to the Derry Family Division last Friday while he was in jail, and discovered that the Family Division - Master Cross and Judge Sadler NEVER required any Child Support Guideline Worksheets to be completed in the matter, never considered the statutorily required elements that would justify modifying guidelines child support, and summarily made an order for my client to pay the non-custodial mother. My objections to such ridiculous orders is well documented on the world wide web in this case with the full approval of my client.

As you can see from the enclosed, he doesn't have kind words for Attorney Jonathan Ross either. I was present for one of Attorney Ross's statements to the Court in October of 2006 when he told the court that my client's daughter did not have a urinary tract infection, when the lab report and the prescription for antibiotics given my client's daughter obviously negated his statement.

I am all the more disgusted by Master Cross's and Judge Sadler's rulings after picking up and reading the statutory history of RSA 461-A. Many witnesses stated that by assuming approximately equal parenting that the animosity in the courts would be lessened. Master Cross's and Judge Sadler's orders have done nothing but increase animosity between these two parents. It is my position that he is justifiably angry from watching months and years of decisions that are not in the best interest of his daughter. The links to all documents supporting his letters are available on my web site. If you wish to view the electronic version of the letters to be able to follow the links, please feel free to email me at [paulaNOSPAMw@werme.8m.net](mailto:paulaNOSPAMw@werme.8m.net). Obviously, delete the "NOSPAM" from the email address.

Sincerely,

Paula J. Werme
