

Hello Paula, Thanks for your support for fathers in NH.. These fathers have been fighting for years and they deserve a break!! The US and State of NH Constitutions are nothing but rags to the NH Supreme Court, lower courts and the corrupt Judicial Committee at the legislature. They mostly operate without conscience and they get away with it because they police themselves...

These are my opinions and they are public.

Paula:

I am faced with a similar circumstance with the same judge as I will be going to court on back child support and by 6/5/07 I will owe almost as much. Good luck with your battle as it is a shame that our family court system has these rules and truly wonder if this is what they had in mind to put a father in jail to pay for his obligations as a parent. Good luck with Judge Sanders as it is my wife's opinion he hates my guts has me paying child support that is too high. The system I sense wants people to use the system.

Maybe coming from you, an attorney, it will be perceived as real. God know that many including the Governor and most of the Senate feel as though fathers are treated fairly to too well today. Believe that?

Excuse me for saying this as I realize I have to go to the same court and same judge in [] for back child support and even though for myself I can go to jail for mistakes I feel the judge made. But I feel there has to be some way that we can get this man out of jail and possibly get some positive press on how our family courts are out of control. I am willing to put up may not be much money but if we all put in who knows we may be able to get him out.

Dear Paula Werme:

My heartfelt thanks to you for your sensitivity, concern and eloquence about the treatment fathers are getting in family court.

"The **germ of destruction of our nation** is in the power of the judiciary, an irresponsible body — working like gravity by night and by day, gaining a little today and a little tomorrow, and advancing its noiseless step like a thief over the field of jurisdiction, until all shall render powerless the checks of one branch over the other and will become as venal and oppressive as the government from which we separated."
